DECLARATION UNDER 37 CFR 1.132

The undersigned declare as follows:

1. We, Paul Sabin, Peter Rezac, Paul Osenar, and Mohammad Enayetullah, residents of the United States, hereby declare that we are familiar with claims 1-42 recited in the above-identified application (hereinafter the "Claims"). We are inventors or co-inventors of one or more of the Claims.

2. We are also familiar with issued U.S. Patent No. 7,306,864, to Osenar et al. (hereinafter "the '864 Patent") and with World Publication No. WO 03/092096, to Osenar et al. (hereinafter, "the '096 Application").

3. We understand that the Examiner in the above-identified application has asserted that some or all of the subject matter claimed in the instant application is

taught by the '864 Patent and/or the '096 Application.

4. With reference to the following tables, the inventive entities are shown for the present application, the '864 Patent and the '096 Application:

5. We hereby declare that if, and to the extent that any of the subject matter claimed in the instant application was disclosed but not claimed in either or both of the '864 Patent and the '096 Application, that subject matter was invented by the undersigned inventors. As such, the '864 Patent and the '096 Application are not the

work of another relative to the present application. We also confirm that the instantly claimed invention (as recited in claims 1-42) was not invented by Richard Formato, an inventor or co-inventor of one or more claims of the '864 Patent and the '096 Application. Consequently, based on our understanding of 35 USC §102(e), the rejections of the Claims over the '864 Patent and the '096 Application should be withdrawn.

6. We hereby further declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both (18 U.S.C. 1001), and that such willful false statements may jeopardize the validity of the above-identified Application or any patent issued thereon.
